The Big Fight By Rounds; Herald To Have Direct Ringside Reports

Next Monday The Herald will keep the people of El Paso fully posted on the reports from the ringside at Reno. Extra editions of The Herald will be issued downtown as fast as the wires can bring the news and the big press can turn them out, and the returns will be read in the grandstand at the baseball park as fast as they arrive.

This report is coming direct from the ringside at Reno, on a through wire, relayed through Los Angeles, and will be written by the greatest living ring authority-W. W. Naughton. Mr. Naughton is sporting editor of the San Francisco Examiner and one of the highest salaried sporting writers in the country. He has attended and reported every fight in the history of the game in the last 20 or 30 years, and has no equal in covering a fight by rounds.

Mr. Naughton will not take the time to write the story; he will dictate it into the ear of the operator at the ringside and it will be sent to Los Angeles over a leased wire, and there relayed to The Herald office and Washington park, blow by blow. Not a minute will elapse from the time a blow is struck in the Reno arena until it is clicked off the El Paso wire in The Herald office.

It is going to be a great feat and a costly feat, but The Herald believes in giving the news while it is
